EXPERIENCE

Co-founder & Production Manager: 7 Figures Traders• Temple, TX• 50 hrs /weak   (01/03/2021 – 10/10/2021)
- 7 Figures Traders (http://7figurestraders.com/index.php) is a structured training program (web app) that was built by me and my business partners in March of 2021 to teach people to trade (stock, options, futures contracts)
- Work and strategize with others on cross-functional teams and stakeholders to design the web application and organization's structure.
- Design the application prototype, training videos, trading strategies, communication methods, the process of implementation, and risk management strategies.
- Successfully designing this system that helps users to develop their trading plans. After two months of the first group shows an average increase of 8% in their profits

Co-founder & COO: Luxe Nails & Spa L.L.C • Fort Wayne, IN• 40 hrs /weak   **(**12/15/2018 – 06/10/2021)
- Lead cross-functional decision-making & implementation (Finance, Construction, Legal, Sales, and Marketing) to define infrastructure plan, business support systems, and operation plan
- Provided advice and instruction on work methods, practices, and procedures to improve profits (through marketing, social media management, staff training). Financial monitoring, budget management, internal management, and customer services
- The result shows an increase in the sales records by 250% (second year) compared to the first fiscal year

Logistic Specialist & Watercraft Engineer: US Army • Fort Eustis, VA • 40 hrs /weak **(**11/24/2015– 11/21/2017)
- Maintaining inventory records of the Vessel Support Office. Preparing work's schedules, and routine reports to the higher headquarters
- Developing an inventory record and tracking database that ensures VSO warehouse equipment and inventory are 100% accountable. This database was evaluated to benefit my company in years (Army Achievement Medals & recommendation letter from the company's commander are received)

Teaching Assistant: De Anza College• Cupertino, CA• 20 hrs /weak   (01/01/2014 – 07/01/2014)
- Worked directly under the CIS Lab Manager toward any coding issues that students may submit. Guided students' projects to ensure they meet their instructor's requirements

Technical Support: Phu's Computer Shop • Ho Chi Minh, Vietnam• 40 hrs /weak   (08/01/2009 – 03/01/2011)
- Provided base level IT support to clients by identifying, developing, installing, and monitoring system software to ensure its efficiency (Hardware installation, and troubleshoot, networks troubleshoot, prototype design, and installation)
